A WALK THROUGH HISTORY is an independent Russian publishing house specializing in children's books, primarily nonfiction. We have created and designed more than 60 titles – books on history and other subjects: railroads, football, theatre, alpinism, mathematics, space travel, paleontology, animals and plants. Founded in 2010, our publishing house has already established a reputation for its original historical series. All our books and games on history provide children with an insight into a specific historical era and give them the opportunity to understand and participate in the events of that time. We believe that active participation is the key to effective learning. Our mission is to help parents to spend quality time with their kids enjoying our excellent books and games.

## Our books have been translated into 8 languages and children are reading us in 8 countries: France, Germany, Italy, China, Vietnam, Taiwan, South Korea and Ukraine.

Our books have won the Russian Book Design and Russian Publishers Association Awards many times. In 2013 we got the KNIGURU Book prize, and in 2012 our Medieval Russia Series received the Book of the Year National Award.

OUR HISTORICAL SERIES:

THE STONE AGE, ANCIENT CRETE, MEDIEVAL RUSSIA, NAPOLEONIC WARS IN RUSSIA, PETER THE GREAT'S RUSSIA, ANCIENT EGYPT, ANCIENT ROME, THE MIDDLE AGES, RUSSIA IN 1917, ANCIENT CHINA, ANCIENT GREECE

## WILD CITIES

By Pavel Boev and Dmitry Burenko Drawings mina.milk

Cities also have wildlife, and there is more of it than we think. How do wild animals and plants get along with humans in a modern city? In this book we visit various cities of Russia, meet the Baltic seal, tiger, mandarin duck, gray whale, karakurt spider and Lusitanian slug... We learn how urban ecosystems function, how green spaces help purify the air and make the climate more comfortable, swamps purify water, and urban meadows save pollinating insects.

## THE LAWS OF PHYSICS IN EVERYDAY LIFE

By Yuri Virovets Drawings by Liza Kazinskaya

This book is not a physics textbook. There are no calculations, no formulas. It gives a simple and understandable explanation of physical laws and examples of how these laws work in the daily life of each of us.

## GEOLOGY: MINERALS. CONTINENTS, NOOSPHERE

By Pyotr Voltsit Drawings by Fedor Vladimirov

This is not a geology textbook, but a fascinating story about our planet and the people who study it. Interesting facts, lively language, witty illustrations and experiments, which are easily carried out in the kitchen with a pot, a vacuum cleaner, an iron and a bunch of watercress. Transformations of rocks and minerals, emergence of volcanoes, growth and disappearance of islands, the origins of coal and oil, the history of the Earth and even other planets. How does dill help to learn the secrets of the earth's bowels? Why is the Dead Sea so salty? Do you need to buy a lead umbrella? What do all these questions (and many more) have to do with geology? Read and find out!

## HISTORY OF WEAPONS: ANTIQUITY

By Andrei Dubrovsky Drawings by Alexey Kapninsky (Kapych)

The book describes the invention of weapons, war tactics, strategy and famous generals from the Stone Age to the fall of the Roman Empire. Weapons and war have always been one of the forces that ruled the course of history. The change from bronze to iron, the introduction of the horse and the chariot, the use of ships or battle elephants are all major steps in the history of weapons and in the fate of nations. The Assyrian kingdom, the large Hellenistic empire of Alexander the Great and Pax Romana were built by war and perished by war. Illustrations for this book were done by the famous Russian animation and book artist Alexey Kapninsky.

#### TALKING PIPES

It has been known for centuries that pipes help sound to travel. In medieval cadies there often were special listening holes through which you can hear people in the next room even if they were speaking very quietly.

In 1672 famous English philosopher and naturalist Francis Bacon described sound pipes that would help to talk over a big distance. It was quite a simple system: an ison pipe with bell-shaped ends was connecting two rooms, and people in these norms could talk to one another.

A hundred years later another English philosopher, Jeremy Bentham, suggested using such talking pipes in the construction of a perfect prison he had designed, in the army and in the navy.

#### WATER TELEGRAP

How do you send messager without messangers? Andert Romans invented a very clever ways to do this. They took common barnels filled with water and round a water telegraph. Historian Polybus mentioned this invention being used when Romans fought as war with a mighty African state of Carthage (III-II or E.C.).

To serie a signal from one camp to active it across used identical barrels of water. Each that a babber inside with identical babber attaches to a, each on a different digeth. One camp is the non-three signales by another the values of barrels simulaneously. Then they signales with a fact hat call the values of barrels with the message – for sample, sites as the assessed were the bablet with the message – for sample, estable + mess they with the message – to extend the message – for sample, estable + mess the sites with the message – that's water has been as and destroyed cathetype?

Chapter PHONE BEFORE PHONE

It's impossible to imagine life without cell phones. We are used to sending messages, calling each other, chatting, watching TikTok 24 hours a day. But it wasn't always like this. One hundled years ago even having a telephone set in an apartment was rare, and portable phones and video calls were something unimaginable!

#### SPEAKERPHONE

In the ancient times people had many ways of sending messages to each other. For example, if an enemy attacked, people would light files on signal towers and sound belts calling warriors to arms. But there was a problem: not only friends would neceive these messages, but exer-

Since ancient times, people found fossilized bones and shells of strange creatures. For thousands of years they did not understand who these remnants belonged to, and tried to explain their findings somehow: these bones belonged to giants and monsters, or to antediluvian fauna. Gradually, scientists began to understand that such remains belonged to animals, and finally they declared: long before the appearance of people, these bizarre animals, fishes and lizards existed on Farth. and those fossils were their remains. Meet pioneers of paleontology, learn about their amazing discoveries and bold hypotheses! Here you will find the genius Georges Cuvier and his mastodon, the famous Charles Darwin and his toxodon, the brave Mary Anning and her ichthyosaur, the writer and paleontologist Ivan Efremov and his titanophon and many others.

or children 6 yrs and up

By Ekaterina Stepanenko Drawings by Polya Plavinskaya

From time immemorial people believed there were all kinds of wondrous creatures in faraway places. They fly in the air and swim deep in the ocean waters and hide in the mountains. Some of them are dangerous and some can bring you wealth and even eternal life. Some have been hunted for hundreds of years and are still sought today. This book describes some of the bizarre creatures born by humankind's fantasy: their habits and habitats and what science has to say about the possibility of their existence.

Here you will find unicorn and cockatice, dragon and kitsune, the kraken and the Nessie, tripodero and bigfoot and many others.

#### BOOK OF COLD, ICE AND SNOW

By Ekaterina Stepanenko Drawings by Polya Plavinskaya

The main idea here is to show winter through various viewpoints: a biologist's, a physicist's, a mathematician's, a historian's and a geographer's. It is a collection of the most interesting and unusual facts, exciting stories, myths and legends about winter, arranged in alphabetical order. The book creates a special magical atmosphere with its vivid and colorful illustrations. All that we love in winter and everything that strikes our imagination, from secrets of nature and dangerous adventures of the past, to scientific discoveries and fairy tales – is collected here in one snowy volume.

## ALL THE WORLD'S A STAGE The Story of the theatre

By Pyotr Vorotyntsev Drawings by Alisa Yufa

Humanity has been acting and playing roles from time immemorial. The book explores theatre as an elusive, floating art and outlines the evolving dynamics between the actors, director, costume designer, composer and the public. How did the relationship between actor and spectator change with time? This is an illustrated history of theatre from Ancient Greece till the present. Opera and ballet, puppet shows and street theatre, Noh and kabuki theatre, Shakespeare, Stanislavsky and Meyerhold.

#### FOOTBALL: THE GAME THAT CHANGED THE WORLD

By Laurent Nicolet and Lev Virovets Drawings by Natalya Averyanova

Is it true that the first football players in Russia entertained the public between bicycle races? Why did bachelors and married men have to play against each other? Is it possible to cheat, to deceive the referee and win the world championship? What teams did the Little Mozart, Black Spider and Black Panther play for? Most people never ask such questions, while the authors of this book have not only asked them, but also found the answers. This is an exciting history of football from the very beginning till present day, for both children and adults, either long-standing fans or those trying to understand what inspires their friends and family.

## LET'S GO TO DACHA! Stories of the summer holidays

By Evgenia Günter Drawings by Olesya Gonserovskaya

The legendary Russian dacha – a summer home away from the city. What does it mean to go there for summer? A place of literary discussions, balls and music soirees, of garden tea parties and tennis matches, or maybe an infinite row of garden beds with potatoes and carrots and incessant toil? What were the games that children played there and what were adults doing all summer holidays? This is the story of dacha in the late 19th – early 21th centuries Russia with dreamy and nostalgic illustrations by Olesya Gonserovkaya.

#### WE LIVE IN ANCIENT GREECE

By Andrei Dubrovsky Drawings by Victoria Stebleva

Isn't it amazing that Ancient Greece managed to influence the whole world so powerfully! Democracy, theater, the Olympic Games, philosophy, astronomy, history and mathematics – all of this comes from Ancient Greece, or Hellas, as the Greeks themselves called their country. This is why Greece is called «the cradle of Western civilization».

While other ancient civilizations boasted of the size of their territory and their innumerable armies, the Greecs created their own art, science, sports and politics, and the whole world still uses many of their ideas and inventions.

#### WE LIVE IN ANCIENT CHINA interactive encyclopedia

By Sergey Dmitriev Drawings by Nadya Davydova

"You have surely heard about China. Many things around you were made there - toys, clothes and your mobile phone. Today China does not seem as strange and faraway as it used to. But do we really know much about this country?" This question opens the book written by a renowned Sinologist, historian Sergey Dmitriev.

The history of China, one of the most ancient civilizations, is like a piece of multicolored Chinese silk - weaved from many threads and events. Now when other ancient civilizations are long gone, their cities ruined and their languages forgotten - the Chinese one still exists and keeps many of its secrets.

WE LIVE IN 1917 interactive encyclopedia

By Pavel Rogozny Drawings by Ekaterina Gavrilova HISTORICAL ENCYCLOPEDIAS

These encyclopedias tell the reader how children and adults used to live hundreds or even thousands of years ago. Here you will find not only the traditional tales of wars and generals, royal dynasties and power struggles, rise and fall of empires but also the everyday life in its details. What furniture was there in an ancient Egyptian's home? How did Cretans build their ships? What toys did little boys and girls in Rome play with? What was there for dinner in Ancient China? How did people of the past live and work, what laws protected them, how did they study and shop, what medicine did they take and what did they do for fun – everything is described in our encyclopedias.

#### HIDE-AND-SEEK PICTURE BOOKS

The inquisitive little pair of mice, named Timka and Tinka, travel through time together with the readers. They have visited the Stone Age, ancient Egypt and Rome and medieval Europe. Here they come to an Egyptian school, look at how a Roman aqueduct is built, and even take part in a tournament. The detailed pictures explain how people used to live in the past, what they were dressed like and what they did. Each page has hidden objects to find. When you have discovered them all you can read about them in the margins.
